Data Interface Control Document (GEN-SPE-ESO-19400-794)

Current version 1.1 (November 1997)

Defines

- ▷ format of data products
- ▷ data structures
- ▷ keyword rules
- ▷ dictionary rules
- ▷ physical units
- ▷ naming conventions

The document needs updating to better reflect the current situation and the lessons learned in the last two years.

Especially Appendix B ('Mandatory header keywords') has been superseded by existing dictionaries. Please refer to released dictionaries as examples.

Please do not hesitate to contact us if you have any questions.
