## Peer-reviewed publications by ESO scientists

The ESO Library maintains the ESO Telescope Bibliography (telbib) and is responsible for providing paper-based statistics. Publications in refereed journals based on ESO data (2022) can be retrieved through telbib: [ESO data papers 2022](#). Access to the database for the years 1996 to present as well as an overview of publication statistics are available via <https://telbib.eso.org> and from the "[Basic ESO Publication Statistics](#)" document. Papers that use data from non-ESO telescopes or observations obtained with hosted telescopes are not included.

The list below includes papers that are (co-)authored by ESO authors, with or without use of ESO data. It is ordered alphabetically by first ESO-affiliated author.
