

# List of bibliographical references included in the CHARM Catalogue

Last update August 31, 2004

---

References are color-coded. The results are:

- **included** in the catalog and publication available;
- **included** in the catalog, but the publication is not available (entries from title or abstract only);
- **not included** because unavailable;
- **not included** because no information is present or it is redundant with other references included. In this case the publication may or may not be present.

Publications can be accessed (when available), by clicking on the corresponding [link](#).
