

# BRAIN POWER FOR ENGINEERING

**Arttu Laitinen**  
**D. Sc. Tech**  
 Allianz arena, Munich,  
 16-17 October 2012

**BRAIN POWER FOR ENGINEERING**

## Partner in technical services since 1986

- **Comatec is a Finnish engineering company with**
  - 12 offices around Finland
  - Over 370 professionals working on engineering design
- **Areas of expertise**
  - Mobile machinery
  - Industry production systems
  - Transportation equipment
- **Offerings**
  - Concepts, projects, management
  - Deliver turnkey solutions
  - Subcontract for E-ELT

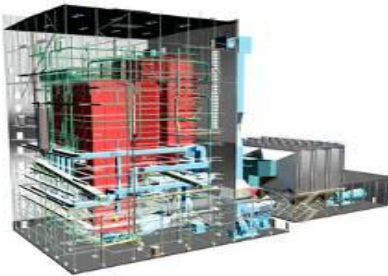

19.10.2012

## Provider of demanding design and expert services

- Nuclear waste disposal
- ITER service robot
  - Divertor test platform (DTP2)

3

## Further information

- One-stop engineering service provider offering
  - Mechanics, kinematics, thermal analysis, electromechanics, electromagnetics
  - Electrics, automation
  - Hydraulics, digital hydraulics
  - Product safety and reliability
- Areas under development
  - Active damping for earthquake protection
  - Energy efficient digital hydraulic hybrid systems
  - Clic, Compact Linear Collider
