New ESOcast intro	New ESOcast introduction
Title: Astronomers Capture First Image of a Black Hole.	
1. Astronomers have captured the shadow of a supermassive black hole ...	
2. ...revealing a dark shadow set against a glowing disc of superheated gas and dust.	
3. This feat was once considered impossible ...	
4. ...as black holes cast only small, difficult-to-observe shadows .	
5. Scientists linked up eight telescopes across the globe	
6. ...facing extreme conditions at isolated locations ...	
7. ...to create the Earth-sized Event Horizon Telescope .	
8. This unprecedented result heralds a new age of black hole exploration , paving the way for further breakthroughs.	
00:00 [Outro]	<i>Produced by ESO, the European Southern Observatory. Reaching new heights in Astronomy.</i>
