XRP range Storage tanks Stainless steel series

CRYO DIFFUSION offers a range of vertical storage tanks, built in non-magnetic stainless steel. These tanks are particularly adapted for multiple uses of liquid NITROGEN and ARGON. They are fitted with an NW 50 flange on which is fixed a TAP withdrawing head, equipped with a pressure regulator. Standard tanks are provided with a plug.

	XRP 30	XRP 60	XRP 120	XRP 200	XRP 450
Total capacity	30	60	127	210	432
Empty weight (kg)	17	34	62	86	230
LN ₂ full weight (kg)	45	86,5	164,5	256	579
LN ₂ loss (l/day)*	3	1,8	1,6	2	3
Maxi pressure (kg/cm ²)	1,5	1,5	1,5	1,5	3,9
A Total height (mm)	735	915	1044	1450	1389
B Inner height (mm)	627	698	853	1294	1120
C Outer diameter (mm)	360	460	570	570	850
Regulations	<i>These tanks conform to the DESP 97/23 CE</i>
