New Editor

It is an honour and a challenge to take up the editorship of the Messenger at this time of ESO’s expanding role in European and worldwide astronomy. In order to mark the change, we have made a few adjustments to the appearance without departing from the overall style that Peter Shaver had evolved during his term as editor. I would like to thank Peter for gently coaching me into the position and Jutta Boxheimer, the technical editor, for the high quality of the layout.
