

ESO, the European Southern Observatory, was created in 1962 to . . . establish and operate an astronomical observatory in the southern hemisphere, equipped with powerful instruments, with the aim of furthering and organising collaboration in astronomy . . . It is supported by eight countries: Belgium, Denmark, France, Germany, Italy, the Netherlands, Sweden and Switzerland. It operates the La Silla observatory in the Atacama desert, 600 km north of Santiago de Chile, at 2,400 m altitude, where fourteen optical telescopes with diameters up to 3.6 m and a 15-m submillimetre radio telescope (SEST) are now in operation. The 3.5-m New Technology Telescope (NTT) became operational in 1990, and a giant telescope (VLT = Very Large Telescope), consisting of four 8-m telescopes (equivalent aperture = 16 m) is under construction. It is being erected on Paranal, a 2,600 m high mountain in northern Chile, approximately 130 km south of Antofagasta. Eight hundred scientists make proposals each year for the use of the telescopes at La Silla. The ESO Headquarters are located in Garching, near Munich, Germany. It is the scientific, technical and administrative centre of ESO where technical development programmes are carried out to provide the La Silla observatory with the most advanced instruments. There are also extensive facilities which enable the scientists to analyse their data. In Europe ESO employs about 200 international Staff members, Fellows and Associates; at La Silla about 50 and, in addition, 150 local Staff members.

The ESO MESSENGER is published four times a year: normally in March, June, September and December. ESO also publishes Conference Proceedings, Preprints, Technical Notes and other material connected to its activities. Press Releases inform the media about particular events. ESO Conference Proceedings Still Available

A number of ESO conference and workshop proceedings are still available. To permit you to complete the series or simply to inform you about any volume that you may have missed, we reproduce here a list of some of the more recent ones.

No.	Title	Price
45	ESO/EIPC Workshop "Structure, Dynamics and Chemical Evolution of Elliptical Galaxies", 1993	DM 90.—
46	Second ESO/CTIO Workshop on Mass Loss on the AGB and Beyond, 1993	DM 70.—
47	5th ESO/ST-ECF Data Analysis Workshop, 1993	DM 30.—
48	ICO-16 Satellite Conference on "Active and Adaptive Optics", 1994	DM 90.—
49	ESO/OHP Workshop on "Dwarf Galaxies", 1994	DM 90.—
50	ESO/OAT Workshop "Handling and Archiving Data from Ground-based Telescopes", 1994	DM 35.—
51	Third CTIO/ESO Workshop on "The Local Group: Comparative and Global Properties", 1995	DM 50.—
52	European SL-9/Jupiter Workshop, 1995	DM 80.—
53	ESO/ST-ECF Workshop on "Calibrating and understanding HST and ESO instruments", 1995	DM 60.—
54	OSA/ESO Topical Meeting on "Adaptive Optics", 1996	DM 80.—
